THE INTERGOVERNMENTAL RELATIONS ACT

(Cap. 265F)

DELINEATION OF NATIONAL GOVERNMENT AND COUNTY GOVERNMENT FUNCTIONS ON COUNTY TRANSPORT

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has delineated functions relating to county transport between the national government and county governments in the manner set out in the Schedule.

Functions of the national government and county governments relating to county transport

SCHEDULE

1. County roads

National Government	County Government
(a) Develop national policies, legislation, norms and standards on development of county roads.	(a) Develop and implement county specific policies, legislation and norms.
(b) Build the capacity and offer technical assistance to the county governments to enable county governments undertake the function of county roads development and maintenance.	(b) Construct and maintain county roads.

National Government	County Government
	(c) Manage county roads reserves and access to roadside developments along county road reserves.
	(d) Control axle load on county roads.
	(e) Implement road policies in relation to county roads.
	(f) Ensure the quality of county road works is in accordance with national set standards.
	(g) Collect and collate all such data relating to the use of county roads.
	(h) Monitor and evaluate the use of county roads.
	(i) Liaise and co-coordinate with national government in planning and operations of county roads.
	(j) Manage county mechanical and transport equipment.

2. Street lighting

National Government	County Government
(a) Develop national policies, legislation, norms and standards to regulate traffic.	(a) Provide and maintain street lighting infrastructure.
(b) Manage traffic on national trunk roads.	(b) Implement the traffic impact assessments reports.
(c) Enforce the Traffic Act.	(c) Develop and implement county specific policies and legislation in accordance with the national legislation.
(d) Designate cycling and pedestrian lanes on national trunk roads.	(d) Implement national norms and standards.
(e) Provide and maintain traffic signals on national trunk roads.	(e) Manage traffic within county roads, county cities and urban areas.
(f) Establish road side stations for public transport vehicles in transit on national trunk roads.	(f) Designate truck routes within an urban area.
(g) Undertake traffic impact assessments.	(g) Undertake traffic impact assessments.
(h) Implement the traffic impact assessments reports.	(h) Implement the traffic impact assessments reports.
	(i) Establish lay bays for public transport vehicles in transit on county roads.
	(j) Establish road side stations for public transport vehicles in transit on county roads.
	(k) Enforce the Traffic Act within county roads and urban areas.
	(l) Designate cycling and pedestrian lanes on county roads.
	(m) Provide and maintain traffic signals on county roads.

3. Parking

National Government	County Government
	(a) Develop and maintain county parking through legislation.
	(b) Regulate parking within the county.
	(c) License parking areas.
	(d) Designate parking bays.
	(e) Implement county parking regulations and legislation.
	(f) Ensure compliance with the

	car park standards on approved number of vehicle spaces.
	(g) Levy congestion charges on controlled areas.

4. Public road transport

<i>National Government</i>	<i>County Government</i>
(a) Develop national policies, legislation, norms and standards on roads safety.	(a) Implement national policies, legislation, norms and standards on roads safety.
(b) Manage and regulate transport safety within the country.	(b) Develop and implement county transport legislation, regulations and policies.
(c) Formulate and review national transport laws, policies and regulations.	(c) Manage transport safety within the county.
(d) Develop standards for vehicle fabrication and assembly.	(d) Issue permits to commercial and public service vehicles operating within the county.
(e) Register motorised transport units.	(e) Designate public service vehicles terminals.
(f) Inspect commercial, public service vehicles and accident vehicles.	(f) Develop and regulate a network plan for public service vehicles.
(g) Develop and review curriculum for driver training, testing and accreditation.	(g) Regulate operations of commercial motorcycles including designating operation routes and picking points.
(h) Regulation of training, testing and accreditation of drivers.	(h) Assign picking and dropping points for public service vehicles.
(i) Co-ordinate road safety programs.	(i) Develop public transport facilities within counties.
(j) Provide non-motorised transport facilities on national trunk roads.	(j) Provide non-motorized transport facilities on county roads.

5. Ferries and harbours, excluding the regulation of international and national shipping and matters related thereto.

<i>National Government</i>	<i>County Government</i>
(a) Develop national policies, legislation, norms and standards.	(a) Develop and implement county harbours policies and legislation, within the framework of national policies and legislation.
(b) Operate and maintain ferries operating in national and international water ways.	(b) Implement national policies and legislation in relation to county harbours.
(c) Enforce safety of ferries, including compliance with construction regulations, maintenance of safety standards and safety navigation rules.	(c) Develop, maintain and operate ferries and harbours in inland lakes and waters.
(d) Conduct regular inspection of ferries to ensure maritime safety and prevention of marine pollution.	(d) Develop, manage and maintain county harbours.
(e) Provide and maintain ferries to operate in international waterways.	(e) Rehabilitate and maintain county harbours.
(f) Provide and maintain ferries to operate in international waterways.	(f) Control pollution within the harbours.

<i>National Government</i>	<i>County Government</i>
(g) Registration and licensing of all ferries.	(g) Collect and maintain county harbours data.
(h) Licensing of pilots (captains) and shipping operators.	(h) Provide and maintain ferries to operate in inland lakes and waters.
(i) Carry out marine casualty investigations.	

Notes

1. The two levels of Government shall consult and co-operate in the process of the transfer of resources to support the implementation of the functions.

2. In performance of their functions, the two levels of Government shall be guided by the national values and principles under Articles 10, 175, 189 and 232.

3. County governments shall, in the implementation of functions specified in paragraphs 1 to 13 of Part B of the Fourth Schedule to the Constitution, ensure and co-ordinate the participation of communities and locations in governance at the local level and assist communities and locations to develop the administrative capacity for effective participation in governance at the local level.

Dated the 16th December, 2024.

Intergovernmental Relations Technical Committee.

GAZETTE NOTICE No. 16477

THE CONSTITUTION OF KENYA

THE INTERGOVERNMENTAL RELATIONS ACT

(Cap. 265F)

DELINEATION OF NATIONAL GOVERNMENT FUNCTIONS AND COUNTY GOVERNMENT FUNCTIONS ON THE IMPLEMENTATION OF SPECIFIC NATIONAL GOVERNMENT POLICIES ON NATURAL RESOURCES AND ENVIRONMENTAL CONSERVATION

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has delineated the functions relating to implementation of specific national government policies on natural resources and environmental conservation between the national government and county governments in the manner set out in the Schedule.

SCHEDULE

Functions of the national government and county governments relating to the implementation of specific national government policies on natural resources and environmental conservation

1. Soil and water conservation

<i>National Government</i>	<i>County Governments</i>
(a) Develop national policies, legislation, norms, standards and guidelines for regulation, management and use of international water resources.	(a) Implement national policies, legislation, standards, guidelines and norms on soil and water conservation.
(b) Develop national policies, legislation, norms, standards and guidelines for regulation, management and use of national water resources.	(b) Develop and implement county specific soil and water conservation policies, legislation and plans in line with the national policies and legislation.
(c) Enforce standards, procedures and Regulations for the management and use of water resources.	(c) Conserve water springs in private land, community land, public land and protected areas in accordance with the national policies and legislation.

<i>National Government</i>	<i>County Governments</i>
(d) Develop standards, procedures and Regulations for dam safety and design and hydraulic engineering.	(d) Undertake water conservation of wells, water pans and dams in private land, community land and public protected areas.
(e) Develop dams and other water storage facilities (hydraulic engineering).	(e) Conserve water catchment areas in public protected areas (managed by Counties), private lands and community lands.
(f) Regulate and protect water resources from adverse impacts.	(f) Implement catchment management plans.
(g) Conduct soil and water testing for environmental protection.	
(h) Undertake ecological restoration in degraded public and community land.	
(i) Monitor and evaluate implementation of county specific policies related to natural resources and environment conservation.	
(j) Survey and delineate riparian areas.	
(k) Co-ordinate community engagement in planning and protection of catchment areas.	
(l) Borehole site identification and drilling.	
(m) Rehabilitate and manage boreholes for water supply.	

2. Forestry

<i>National Government</i>	<i>County Governments</i>
Develop national policies on natural resources and environmental conservation.	(a) Formulate county specific laws and legislation.
	(b) Issue operation licenses for private farms and county forests in community land.
	(c) Manage or resolve Intra-county conflict on county forests resources and farm forestry.
	(d) Ensure sustainable management of community forests.
	(e) Implement national policies relevant to county forests.

3. Manage all forests on public land vested and held in trust by County Governments

<i>National Government</i>	<i>County Governments</i>
	(a) Develop and implement county forest management plans.
	(b) Establish county forest tree nurseries.
	(c) Undertake county forest fire management, and forest health management.

<i>National Government</i>	<i>County Governments</i>
	(d) Maintain county forests and farm forests records, databases and information.

4. Promote afforestation and re-afforestation activities in the County

<i>National Government</i>	<i>County Governments</i>
	(a) Identify and set aside land for forest conservation.
	(b) Establish county forests.
	(c) Rehabilitate forests in fragile and degraded eco-system or forests in community land.
	(d) Promote public-private partnership management practice in county forests.
	(e) Undertake tree growing in private, community, and county lands.

5. Promote value addition and commercialization of forest products (wood and non-wood forest products)

<i>National Government</i>	<i>County Governments</i>
	(a) Develop nature-based enterprises within county forests.
	(b) Support community conservancy groups in the management and conservation of community forests.
	(c) Promote <i>ex-situ</i> and conservation of forest genetic resources.
	(d) Valorize biological and genetical forest resources.
	(e) Promote forest-based cottage industries.
	(f) Manage a database of entrepreneurs in forest products.

6. Collect and manage County Forest and farm forest revenue

<i>National Government</i>	<i>County Governments</i>
	(a) License county forests, urban and farm forest produce.
	(b) Issue intra- County forest-based movement permit.

7. Establish and maintain green zones in markets, urban areas, housing estates and any other areas within the County

<i>National Government</i>	<i>County Governments</i>
	(a) Establish and maintain recreational parks.
	(b) Establish and maintain arboreta.
	(c) Promote roadside tree planting.
	(d) Enforce the establishment of green spaces by housing estate developers.

8. Develop and maintain county forest infrastructure

<i>National Government</i>	<i>County Governments</i>
	(a) Establish and maintain county tree nurseries and related infrastructure.
	(b) Maintain county forest roads infrastructure.
	(c) Maintain irrigation equipment.
	(d) Prevent fire breaks.
	(e) Establish and maintain forestry extension infrastructure.
	(f) Establish and maintain county forest information canterers.
	(g) Construct and maintain county forest fire watch towers.

9. Develop a sustainable charcoal value chain for County forests, private forests and community forests

<i>National Government</i>	<i>County Governments</i>
	(a) Regulate and license charcoal producers and vendors.
	(b) Develop county specific charcoal regulations.
	(c) Promote the charcoal trade.
	(d) Promote efficient charcoal production and utilization technologies.

10. Enforce national and county legislation of forest within the county forests and private farms

<i>National Government</i>	<i>County Governments</i>
	(a) Protect county forest resources.
	(b) Establish protection barriers.

11. Establish and manage farm forest extension services

<i>National Government</i>	<i>County Governments</i>
	(a) Establish County forests extension services to support farm forestry and agroforestry.
	(b) Create community awareness.
	(c) Promote tree planting in community, private and county lands.
	(d) Provide forestry extension services in the county.
	(e) Advise and assist communities and individuals in the management of the community forests or private forests.
	(f) Manage riparian land around urban areas.
	(g) Implement national guidelines on riparian land.
	(h) Conserve and manage forest and game reserves formerly managed by local authorities.
	(i) Develop clean energy mechanisms.

12. Mining

<i>National Government</i>	<i>County Governments</i>
(a) Provide a framework for equitable sharing of mineral benefits between the national government, county governments and the community where mining takes place.	(a) Regulate sustainable extraction of artisanal, small-scale and low-value minerals on public and community lands.
(b) Develop national law on value addition for precious minerals.	(b) Develop county policy and legislation on the artisanal and small-scale mining.
(c) Regulate mining standards.	(c) Manage and license artisanal and small-scale mining in the county.
(d) Conduct exploration and mapping for minerals.	(d) Enforce mining standards.
(e) Regulate sustainable extraction of high-value, medium and large-scale mining.	(e) Approve land use for mining.
	(f) Regulate sustainable extraction of artisanal, small-scale and low-value minerals on public and community lands.
	(g) Implement a mining policy.
	(h) Conduct exploration and mapping of mineral resources.

13. Wildlife management and conservation

<i>National Government</i>	<i>County Governments</i>
(a) Develop national policies and legislation on wildlife management and conservation	(a) Implement national policies and legislation on wildlife management and conservation
(b) Develop a framework for identification, mapping and management of national parks, national reserves, marine national parks and national sanctuaries, taking cognizance of the counties' territorial boundaries within coastal areas that extends to 12 nautical miles from the shore line.	(b) Implement the national framework for management of national reserves, marine national reserves and national sanctuaries.
(c) Build capacity and offer technical assistance to county governments on wildlife management and conservation	(c) Develop county specific wildlife management and conservation policies and legislation
(d) Report on regional and international obligations on wildlife management and conservation	(d) Implement the nationally set standards and norms for reporting on regional and international obligations on wildlife management and conservation
(e) Protect and conserve animals and wildlife.	(e) Manage wildlife in national reserves, marine national reserves and national sanctuaries within 12 nautical miles from the shore line.

14. Waste management

<i>National Government</i>	<i>County Governments</i>
Develop waste management policies, standards and regulations.	(a) Enforce waste management policies, standards and regulations.

<i>National Government</i>	<i>County Governments</i>
	(b) Develop legislation and strategies on the waste management.
	(c) Establish solid waste infrastructure.
	(d) License waste transportation.
	(e) Identify and establish zoning for waste disposal areas.
	(f) Enforce solid waste disposal legislation.
	(g) Enhance public education on solid waste management.
	(h) Develop a solid waste value chain.
	(i) Enforce the implementation of extended producer responsibility within their jurisdiction.

15. Climate change

<i>National Government</i>	<i>County Governments</i>
(a) Formulate national climate change policies and legislation.	(a) Implement national policies and strategies for climate change.
(b) Develop a national climate change action plan.	(b) Establish county-based climate change institutions.
(c) Develop reports on international climate change obligations.	(c) Establish and maintain county climate change fund.
(d) Develop knowledge management products, and undertake research and training on climate change.	(d) Undertake climate change adaptation and mitigation mechanisms.
	(e) Co-ordinate climate change programs related to county government functions.
	(f) Promote resilient building practices.
	(g) Develop county specific legislation and regulations on climate change adaptation and mitigation.
	(h) Develop and implement county climate action programs.
	(i) County climate change knowledge management and reporting.
	(j) Climate change adaptation and mitigation.

Notes

1. The two levels of Government shall consult and co-operate in the process of the transfer of resources to support the implementation of the functions.

2. In performance of their functions, the two levels of Government shall be guided by the national values and principles under Articles 10, 175, 189 and 232.

3. County governments shall, in the implementation of the functions specified in paragraphs 1 to 13 of Part 2 of the Fourth Schedule to the Constitution, ensure and co-ordinate the participation

of communities and locations in governance at the local level and assist communities and locations to develop the administrative capacity for the effective exercise of the functions and powers and participation in governance at the local level.

Dated the 16th December, 2024.

Intergovernmental Relations Technical Committee.*

GAZETTE NOTICE NO. 16478

THE CONSTITUTION OF KENYA

THE INTERGOVERNMENTAL RELATIONS ACT

(Cap. 265F)

DELINEATION OF NATIONAL GOVERNMENT AND COUNTY
GOVERNMENT FUNCTIONS ON AGRICULTURE

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has approved the delineation of the functions relating to agriculture between the National Government and County Governments in the manner set out in the Schedule.

SCHEDULE

Delineation of national government and county governments functions relating to agriculture

1. Crop husbandry

(a) Provision of agricultural extension services and farmer advisory services	
<i>National Government</i>	<i>County Governments</i>
(i) Develop the national agricultural extension policy.	(i) Establish and sustain farmer research extension linkages.
(ii) Develop standards and norms for extension and farmer advisory services and services.	(ii) Generate agricultural statistics and establish agricultural knowledge management centers.
(iii) Provide capacity building and technical assistance to county governments on agricultural extension.	(iii) Promote relevant technologies, innovations and best management practices to farming communities.
(iv) Undertake and disseminate to county governments agricultural research findings.	(iv) Provide an enabling environment for extension services.
	(v) Develop county specific agricultural extension policy where necessary.
	(vi) Implement standards and norms for extension services.
	(vii) Provide capacity building and technical assistance to farming communities.
	(viii) Collaborate with national research institutions to identify and prioritize county research needs.
(b) Develop and implement programs in the agricultural sector to address food and nutrition security in the county.	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national programs for food and nutrition security.	(i) Establish county food and feed reserves.

(ii) Develop guidelines for national food and nutrition security programs to be implemented by the county governments.	(ii) Implement national food and nutrition security programs in the county.
(iii) Establish national strategic food and feed reserves.	(iii) Implement the guidelines for national food security programs.
(iv) Provide technical assistance and capacity building to County Governments to establish strategic food and feed reserves.	(iv) Develop and implement county specific food and nutrition security programs.
(v) Develop a national legal framework for food and feed reserves.	(v) Implement the legal framework for national food and feed reserves.
	(vi) Develop and implement the county specific legal framework for food and feed reserves.
(c) Agricultural storage structures	
<i>National Government</i>	<i>County Governments</i>
Construction and management of national strategic agricultural storage structures	Construct and manage county agricultural storage structures.
(c) Implementation of regulations and standards on quality control of inputs, produce and products in the agricultural sector	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national standards and quality assurance protocols on inputs, produce and products in the agricultural sector.	(i) Implement regulations and national standards and quality assurance protocols on inputs, produce and products in the agricultural sector within the county.
(ii) Develop a comprehensive national reporting system for enforcement of regulations and compliance of standards on quality control of inputs, produce and products in the agricultural sector.	(ii) Implement national standards and quality assurance protocols on fruit and agro-forest tree nurseries.
	(iii) Implement national standards on fruit and agro-forestry tree nurseries in the county including registration, licensing and inspection.
(d) Promote access to farm inputs.	
<i>National Government</i>	<i>County Governments</i>
	Avail farm inputs such as certified seeds, fertilizer, and other planting materials to farmers, such as cassava cutting or potato vines, to farmers;
(e) Develop programs to intervene on soil and water management and conservation of the natural resource base for agriculture	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national strategies and guidelines on soil and water management and conservation of the natural resource base for agriculture.	(i) Implement strategies and guidelines on soil and water management and conservation of the natural resource base for agriculture programs at the county level.

(ii) Capacity build and provide technical assistance to county governments to implement soil and water management and conservation of the natural resource base for agriculture programs.	(ii) Implement soil and water management and conservation of the natural resource base for agriculture programs.
(iii) Develop a legal framework for soil and water management and conservation of the natural resource base for agriculture.	(iii) Develop county specific soil and water management and conservation of the natural resource base guidelines for agriculture.
	(iv) Implement the legal framework for soil and water management and conservation of the natural resource base for agriculture.
(f) Promote market access for crop produce and products	
<i>National Government</i>	<i>County Governments</i>
(i) Promote export market access for crop produce and products.	(i) Promote market access for crop products.
(ii) Develop a national crop market information system.	(ii) Collect and capture crop market data.
(iii) Build capacity and offer technical assistance to the county governments on the national crop market information system.	(iii) Input crop market data into the national crop market information system.
(g) Agricultural data	
<i>National Government</i>	<i>County Governments</i>
	Generate agricultural data, statistics and information on crops.
(h) Infrastructure to promote crop production, agro-processing and market access	
<i>National Government</i>	<i>County Governments</i>
(i) Develop policies, norms and standards on infrastructure to promote crop production, agro-processing and market access.	Provide infrastructure to promote crop production, agro-processing and market access.
(ii) Build capacity and offer technical assistance to the county governments on infrastructure to promote crop production, agro-processing and market access.	
(i) Enhancing accessibility to affordable credit and insurance packages for farmers	
<i>National Government</i>	<i>County Governments</i>
(i) Develop a national crop insurance policy.	(i) Implement the national crop insurance policy.
(ii) Develop an affordable credit policy at national level for farmers.	(ii) Promote farmer uptake of crop insurance policies.
	(iii) Develop programs for affordable credit and insurance premiums for farmers.

(j) Agricultural training centers and agricultural mechanization stations	
<i>National Government</i>	<i>County Governments</i>
	Establish and manage agricultural training centers and agricultural mechanization stations.
(k) Land development services	
<i>National Government</i>	<i>County Governments</i>
	Provide land development services, including construction of water pans for crop and pasture production.
(l) Integrated disaster risk and emergency management for crops	
<i>National Government</i>	<i>County Governments</i>
(i) Develop integrated disaster risk and emergency management in national crop sector policies and plans.	(i) Integrate and implement disaster risk and emergency management in county crop sector policies and plans.
(ii) Develop national emergency plans for crop sector.	(ii) Develop and implement county specific emergency operation plans for the crop sector.
(iii) Establish national rapid response teams for emergency management in crop sector.	(iii) Establish county rapid response teams for emergency management in the crop sector.
2. Animal husbandry	
(a) Provide livestock extension services to deliver husbandry technologies to livestock farmers and pastoralists.	
<i>National Government</i>	<i>County Governments</i>
(i) Develop the national extension service policy.	(i) Establish and manage range lands and fodder feed reserves.
(ii) Develop standards and norms for extension services.	(ii) Develop and implement the county livestock extension policy where necessary.
(iii) Provide capacity building and technical assistance to county governments on animal husbandry.	(iii) Implement standards and norms for livestock extension services.
(iv) Conduct and disseminate research on animal husbandry.	(iv) Provide capacity building and technical assistance to farming communities.
(v) Develop the national range land management strategy.	(v) Collaborate with national research institutions to identify and prioritize county research needs on animal husbandry.
(vi) Develop international cross-border cooperation agreements on the management of international cross-border range resources.	(vi) Implement the national range land management strategy.
(vii) Develop guidelines for the utilization and management of rangelands.	(vii) Implement in collaboration with the communities' cross border cooperation on the management of cross border range

	resources.
(viii) Develop the national programs for the restoration and conservation of the rangelands.	(viii) Implement in collaboration with communities, national guidelines for the utilization and management of rangelands.
(ix) Provide technical assistance to the county governments on restoration and conservation of the rangelands.	(ix) Implement in collaboration with communities, the national program for the restoration and conservation of rangelands.
(x) Conduct periodic national rangeland health assessments.	(x) Provide capacity building to communities on restoration and conservation of the rangelands.
	(xi) Develop and implement in consultation with communities range land specific resource use and management plans and strategies.
	(xii) Develop and implement in consultation with communities range land specific resource use and management plans and strategies.
	(xiii) Develop and implement county legislations and regulations on management of the rangelands.
	(xiv) Develop and implement cross-county memoranda of understanding for the utilization of common rangeland landscapes.
	(xv) Develop and implement county and inter-county specific programs on restoration and conservation of the rangelands.
	(xvi) Implement under the direction of the national government, the management of international cooperation agreements on management of rangeland resources.
	(xvii) Implement findings from periodic national rangeland health assessments.
(b) Standards and norms for livestock and livestock products	
<i>National Government</i>	<i>County Governments</i>
Develop standards and norms for livestock and livestock products.	Implement standards and norms on Livestock and Livestock Products.
(c) Promotion of bee keeping	
<i>National Government</i>	<i>County Governments</i>
(i) Develop a national policy, legislation, standards and norms on apiculture	(i) Implement the national policy, legislation, standards and norms on apiculture (beekeeping)

(beekeeping) development.	development.
(ii) Conduct and disseminate research on apiculture.	(ii) Develop and implement county apiculture policy, strategy and legislation.
	(iii) Provide technical assistance to the farmers on apiculture.
	(iv) Collaborate with national institutions to identify county research need on apiculture.
	(v) Avail beehives and beekeeping equipment and extension services.
	(vi) Provide infrastructure for production, processing and marketing of bee products.
	(vii) Mobilize farmers into associations, groups and cooperatives to enhance bee products production, processing and marketing.
	(viii) Establish colony multiplication centers.
(d) Generate livestock statistics and establish agricultural knowledge management centers	
<i>National Government</i>	<i>County Governments</i>
(a) Develop guidelines on livestock resources statistics and knowledge management.	(a) Implement guidelines on management of livestock resource data and knowledge management.
(b) Provide capacity building to county governments.	(b) Provide capacity building to farmers.
(c) Establish a digitized national livestock resources data management system.	(c) Undertake routine livestock resources data collection, collation, analysis and reporting.
	(d) Digitization of county livestock resources data.
(e) County leather development	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national policy, legislation, standards and norms guiding hides and skins improvement.	(i) Implement national policy, legislation, standards and norms guiding hides and skins improvement.
(ii) Provide capacity building to county governments.	(ii) Establish, operationalize and manage county tanneries and cottage industries for value addition of hides and skins.
(iii) Enforce standards for export and import markets on hides and skins and leather.	(iii) Provide capacity building to flayers.
(iv) Promote export market for hides, skins and leather.	(iv) Issue flayers license and Hides and skin movement permit.
	(v) Inspect and license leather value addition facilities and hides and skin collection bandas.

	(vi) Provide infrastructure for production, processing and marketing of leather.
	(vii) Mobilize farmers into associations, groups and cooperatives to enhance leather production, processing and marketing.
(f) Development and implementation of Livestock Programs/Projects for food and nutrition security	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national programs for food and nutrition security.	(i) Implement county and national food and nutrition security programs in the county.
(ii) Develop guidelines for national food and nutrition security programs to be implemented by the county governments.	(ii) Implement the guidelines for national food and nutrition security programs.
(iii) Establish national strategic food and feed reserves.	(iii) Develop and implement county specific food and nutrition security programs.
(iv) Capacity build and provide Technical assistance to county Government to establish strategic food and feed reserves.	(iv) Establish county food and feed reserves.
(v) Develop a national legal framework for food and feed reserves.	(v) Implement the legal framework for national and county food and feed reserves.
(g) Development of National Livestock Programs/Projects	
<i>National Government</i>	<i>County Governments</i>
	Development and implementation of county Livestock Programs/Projects
(h) Promote livestock breeding Program	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national livestock breeding policy.	(i) Implement national livestock breeding policy.
(ii) Develop standards and quality assurance protocols for livestock genetics and livestock breeding technologies.	(ii) Implement national standards on livestock breeding.
(iii) Develop national guidelines standards and norms on breeding farms, incubators and hatcheries.	(iii) Develop county specific legislation on livestock breeding.
(iv) Develop national standards on administration of breeding technologies.	(iv) Develop and implement county livestock breeding programs.
(v) Establish national livestock genetic resource, research and conservation centers.	(v) Transfer breeding technologies to farmers.
(vi) Promote research on assisted reproductive technologies for livestock breeding.	(vi) Establish county genetic resource and conservation centers and cold storage facilities.
(vii) Build capacity and offer technical assistance to the county governments on livestock breeding.	(vii) Provide capacity, relevant equipment, and infrastructure for livestock breeding technologies.

(viii) Regulate import and export of animal genetics and equipment.	(viii) Implement national standards and norms on breeding farms and hatcheries within the county.
(ix) Regulate the import and export of incubators and hatchery equipment.	(ix) Implement national standards on administration of breeding technologies.
(x) Certification and registration of breeds and breeding material.	(x) Register breeding stock.
(xi) Declaration of emerging livestock.	(xi) Establish and register county breeding farms.
	(xii) Register incubators and hatcheries.
	(xiii) Promote development of emerging livestock.
(i) Disaster risk and emergency management for livestock	
<i>National Government</i>	<i>County Governments</i>
(i) Integrate disaster risk and emergency management in national livestock sector policies and plans.	(i) Integrate disaster risk and emergency management in county livestock sector policies and plans.
(ii) Develop national emergency plans for livestock sector.	(ii) Develop and implement county emergency operation plans for livestock sector.
(iii) Develop national disaster preparedness and response mechanisms.	(iii) Develop and establish county rapid response mechanisms.
(j) Guidelines and standards on development of infrastructure to promote livestock and livestock products	
<i>National Government</i>	<i>County Governments</i>
Develop national guidelines and standards on development of infrastructure to promote livestock and livestock products.	(i) Development and maintenance of County infrastructure to promote livestock and livestock Products
	(ii) Develop county guidelines and standards on development of infrastructure to promote livestock and livestock products.
	(iii) Implement national guidelines and standards on development of infrastructure to promote livestock and livestock products.
	(iv) Develop the infrastructure for sustainable livestock production, value addition and marketing.
(k) Promotion of feedlots	
<i>National Government</i>	<i>County Governments</i>
Develop national policy to promote feedlots	(i) Development of feedlots.
	(ii) Implement national policy on feedlots.
	(iii) Develop and promote feedlots.

	(iv) Registration and regulation of feedlots.
(l) Animal disease control	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national standards and quality control of pesticides.	(i) Animal disease control including carrying out, coordinating and overseeing communal dipping and spraying operations and vaccination campaigns.
(ii) Develop national policies, legislations, strategies and regulations on animal health.	(ii) Implement the national standards and quality control of pesticides including counterfeit and substandard pesticides.
(iii) Develop national guidelines on pesticide resistance surveillance.	(iii) Implement county specific policies, legislation, strategies and regulations on animal health.
(iv) Develop national pesticide resistance surveillance mechanism.	(iv) Monitoring and reporting on pesticide resistance.
(v) Develop national policies and regulations for animal vaccine quality control.	(v) Develop and manage communal dips, spray races and crushes.
(vi) Development and production of vaccines.	(vi) Provide extension services for:
(vii) Co-ordinate the management of trans-boundary animal diseases.	(A) control of livestock pests including ticks, tsetse flies and other biting flies; and
	(B) safe and effective use of pesticides.
	(vii) Undertake animal vaccination campaigns.
(m) Surveillance of livestock diseases, zoonotic diseases and disease vectors	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines for surveillance of livestock diseases, zoonotic diseases and disease vectors.	(i) Implement national guidelines for surveillance of livestock diseases, zoonotic diseases and disease vectors.
(ii) Conduct national disease investigation, surveillance, reporting and notification on disease vectors and notifiable diseases.	(ii) Disease investigation, surveillance, reporting and notification on livestock diseases, zoonotic diseases and vectors.
(iii) Build capacity for county governments to conduct disease surveillance.	(iii) Provide technical assistance to farmers.
(iv) Develop a national digitalized system for surveillance of livestock diseases, zoonotic diseases and disease vectors.	(iv) Capture data, analyse and share records on a national digitalized system.
(v) Manage and maintain a national data repository on livestock diseases, zoonotic diseases and disease vectors.	(v) Develop a digitalized reporting system for livestock diseases, zoonotic diseases and disease vectors.
(n) Early warning and rapid response for pest incursions and disease outbreaks	

<i>National Government</i>	<i>County Governments</i>
(i) Develop a national early warning and rapid response system.	(i) Implement the national early warning and rapid response system.
(ii) Build capacity to county Governments.	(ii) Develop county early warning and rapid response system.
(iii) Coordinate, constitute and facilitate national rapid response team.	(iii) Provide technical assistance to farmers.
	(iv) Coordinate, constitute and facilitate county rapid response team.
(o) Establishment of holding grounds, holding facilities, pre-quarantine and quarantine facilities	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines on establishment of holding grounds, holding facilities, pre-quarantine and quarantine facilities.	(i) Implement national guidelines on establishment of holding grounds, holding facilities, pre-quarantine and quarantine facilities.
(ii) Certification of pre-quarantine and quarantine facilities.	(ii) Promote and develop holding grounds, holding facilities, pre-quarantine and quarantine facilities.
(iii) Build capacity of county governments.	(iii) Registration of private pre-quarantine and quarantine facilities.
(p) Establishment and management of County disease free zones and/or compartments	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines on establishment and management of disease-free zones and/or compartments.	(i) Implement national guidelines on Establishment and management of disease-free zones and compartments
(ii) Build capacity for county governments in the establishment and management of disease-free zones and compartments.	(ii) Provide technical assistance to the farmers.
(q) Certification of animals and animal products	
<i>National Government</i>	<i>County Governments</i>
(i) Develop guidelines for health certification of animals and animal products.	(i) Implement national guidelines for health certification of animals and animal products.
(ii) Issue international animal health certificates.	(ii) Issue animal health certificates.
(r) Cold chain management of biologicals including vaccines, toxins, semen, embryos etc.	
<i>National Government</i>	<i>County Governments</i>
Maintain strategic national biologicals reserve.	Develop infrastructure for cold chain management of biologicals
(s) Pre-vaccination and post vaccination sero surveillance	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines for Pre-vaccination and post vaccination sero surveillance.	(i) Implement national guidelines for pre-vaccination and post vaccination sero surveillance.

(ii) Build capacity for county governments.	(ii) Develop laboratory infrastructure and build technical human resource capacity to undertake county pre and post vaccination sero surveillance for notifiable diseases.
(iii) Undertake national pre and post vaccination sero surveillance for notifiable diseases.	
(t) Establish and manage county animal diseases diagnosis laboratories and services.	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines and standards for establishment and management of animal diseases diagnosis laboratories and services.	(i) Implement national guidelines for establishment and management of animal diseases diagnosis laboratories and services.
(ii) Establish and manage national referral animal diseases diagnosis laboratories and services.	(ii) Establish and manage animal diseases diagnosis laboratories and services.
(u) Veterinary extension services provision.	
<i>National Government</i>	<i>County Governments</i>
(i) Develop the national veterinary extension service policy.	(i) Develop county specific veterinary extension service policy, where necessary.
(ii) Develop standards and norms for veterinary extension services.	(ii) Implement standards and norms for veterinary extension services.
(iii) Provide capacity building and technical assistance to county governments.	(iii) Provide capacity building and technical assistance to communities.
(iv) Research and dissemination of findings, on animal husbandry.	(iv) Collaborate with national research institutions to identify and prioritize county research needs on animal health and management.
(v) Declaration of infected areas, imposition and withdrawal of quarantine measures within the county	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines on declaration of infected areas, imposition and withdrawal of quarantine measures.	(i) Implement national guidelines on declaration of infected areas, imposition and withdrawal of quarantine measures within the county.
(ii) Develop national guidelines on destruction and disposal of infected materials.	(ii) Declaration of infected areas, imposition and withdrawal of quarantine measures in the county.
	(iii) Destruction and disposal of infected materials.
3. Plant disease control	
(a) Surveillance and management of plant diseases and pests including migratory pests	

<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines for surveillance and containment of plant diseases and pests.	(i) Implement national guidelines for surveillance and containment of plant diseases and pests.
(ii) Conduct national disease investigation, surveillance, reporting and notification plant diseases and pests (including migratory pests).	(ii) Conduct county disease investigation, surveillance, reporting and notification on plant diseases and pests (including migratory pests).
(iii) Undertake pest risk analysis and border control.	(iii) Provide technical assistance to farmers.
(iv) Build capacity for county governments to conduct disease surveillance.	(iv) Capture data records on a national digitalized system.
(v) Develop a national digitalized surveillance system.	(v) Develop a digitalized reporting system.
(b) Inter-county synchronized plant diseases, pests and invasive weeds control programs	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines for Inter-County synchronized plant diseases, pests and invasive weeds control programs.	(i) Implement national guidelines for Inter-county synchronized plant diseases, pests and invasive weeds control programs.
(ii) Build capacity for county governments on plant diseases, pests and invasive weeds control programs.	(ii) Provide extension services to farmers on control of plant diseases, pests and invasive weeds.
(iii) Undertake research and disseminate the findings on plant diseases, pests and invasive weeds control.	(iii) Undertake synchronized plant diseases, pests and invasive weeds control.
	(iv) Collaborate with national research institutions to identify and prioritize county research needs on plant diseases, pests and invasive weeds control.
(c) Establish and Manage County plant diseases diagnosis and food safety laboratories and services	
<i>National Government</i>	<i>County Governments</i>
(i) Develop/review national policies, legislation, standards and guidelines on establishment and management of plant diseases diagnosis and food safety laboratories and services.	(i) Implement national policies, legislation, standards and guidelines on establishment and management of plant diseases diagnosis and food safety laboratories and services.
(ii) Establish and manage national referral plant diseases diagnosis and food safety laboratories and services.	(ii) Establish and manage county plant diseases diagnosis and food safety laboratories and services.
(d) Establish and manage plant health emergency response unit	
<i>National Government</i>	<i>County Governments</i>
(i) Develop a national early warning signs and rapid response mechanism.	(i) Develop county early warning signs and rapid response mechanisms.
(ii) Develop early warning signs reporting mechanism.	(ii) Implement the national early warning signs and rapid response mechanisms.

(iii) Build capacity and offer technical assistance to the county governments on the establishment and management of plant health emergency response units.	(iii) Provide technical assistance to farmers.
(iv) Establish and facilitate national rapid response teams.	(iv) Constitute coordinate, and facilitate county rapid response teams.
(e) Declaration of plant disease infected areas within the Counties.	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines on declaration of infected areas, imposition and withdrawal of quarantine measures.	(i) Implement national guidelines on declaration of infected areas, imposition and withdrawal of quarantine measures within the county.
(ii) Develop policy on declaration of infected areas, impose and withdraw quarantine measures in the country.	(ii) Declare infected areas, impose and withdraw quarantine measures in the county.
(iii) Develop national guidelines on Destruction and disposal of infected materials.	(iii) Destroy and dispose of infected materials.
(f) Enforcement of standards on use and sale of agro-chemicals and other inputs	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines and standards on use and sale of agro-chemicals and other inputs.	(i) Implement national guidelines and standards on use and sale of agro-chemicals and other inputs.
(ii) Certify, register and license of agro-chemicals and other inputs.	(ii) Provide technical assistance to agro-chemicals and other inputs dealers and farmers on safe and effective use.
(iii) Build capacity and provide technical assistance to county governments.	(iii) Implement National Guidelines on disposal of agro-chemicals and other inputs.
(iv) Develop National Guidelines on disposal of agro-chemicals and other inputs.	(iv) Inspect and license agro-dealers and other input suppliers.
	(v) Inspect agrochemicals and other inputs.
4. Fisheries	
(a) Fisheries extension services	
<i>National Government</i>	<i>County Governments</i>
(i) Develop the national fisheries extension service policy.	(i) Develop county specific fisheries extension service policy, where necessary.
(ii) Develop standards and norms for fisheries extension services.	(ii) Implement policies, standards and norms for fisheries extension services.
(iii) Build capacity and provide technical assistance to county governments.	(iii) Provide capacity building and technical assistance to communities.
(iv) Conduct fisheries research.	(iv) Collaborate with national research institutions to identify and prioritize local research needs.

(b) Up scaling sea weed, fin fish and crustacean culture (aquaculture)	
<i>National Government</i>	<i>County Governments</i>
(i) Develop a national aquaculture policy.	(i) Implement the national aquaculture policy.
(ii) Develop national standards and norms in aquaculture.	(ii) Implement national standards and norms in aquaculture.
	(iii) Promote and regulate aquaculture within the county.
(c) County fish seed bulking units	
<i>National Government</i>	<i>County Governments</i>
(i) Establish national research, training, conservation and seed bulking centers.	(i) Establish and manage county fish seed bulking/multiplication centers.
(ii) Develop national standards and norms for fish seed bulking centers.	(ii) Implement standards and norms for county fish seed bulking centers.
(iii) Develop and disseminate to county governments aquaculture technologies and innovation in relation to county fish seed bulking.	
(d) Farm trials	
<i>National Government</i>	<i>County Governments</i>
	Undertake on-farm trials
(e) Fish health certification	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national standards and norms for fish health certification.	(i) Implement national standards and norms for fish health.
(ii) Issue fish health certificate for import and export.	(ii) Issue county fish health certificates.
(iii) Train and certify fish inspectors.	
(f) Demarcate all fish breeding areas	
<i>National Government</i>	<i>County Governments</i>
(i) Conduct fisheries research.	
(ii) Develop guidelines on demarcation of fish breeding areas.	
(g) Collection of fish production statistics	
<i>National Government</i>	<i>County Governments</i>
Develop a national fish information system	Collect, capture and share fish statistics data.
(h) Enforcement of fisheries regulations and compliance with management measures	
<i>National Government</i>	<i>County Governments</i>
Develop national fisheries regulations and compliance management measures.	Implement national fisheries regulations and compliance management measures.
(i) Fisheries policy	
<i>National Government</i>	<i>County Governments</i>
	Implement fisheries policy, fisheries management measures and regulation and limit access to fishing.

(j) Fisheries monitoring, control and surveillance	
<i>National Government</i>	<i>County Governments</i>
Develop a framework for monitoring, control and surveillance of fisheries.	Fisheries monitoring, control and surveillance in accordance with the national framework.
(k) Zone for aquaculture and disease control—	
<i>National Government</i>	<i>County Governments</i>
Develop standards for bio-security and disease control.	Implement standards for bio-security and disease control.
5. Livestock Sale Yards	
Construction and management of sale yards and livestock markets—	
<i>National Government</i>	<i>County Governments</i>
Develop national standards for establishment of livestock sale yards and livestock markets.	(i) Implement national standards for establishment of county livestock sale yards and livestock markets.
	(ii) Implement national standards on private livestock sale yards and livestock markets.
	(iii) Develop and manage county sale yards and livestock markets.
	(iv) Inspect and license county livestock sale yards and livestock markets.
	(v) Collect cess and fees that relate to county livestock sale yards and livestock markets.
	(vi) Inspect and certify disease free status.
	(vii) Issue livestock movement permits.
	(viii) Impose and withdraw quarantines and closure of county livestock sale yards and livestock markets to control disease outbreaks and safeguard public health.
6. County Abattoirs	
(a) Construction of Abattoirs	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines and standards on construction and management of abattoirs.	(i) Implement national guidelines and standards on construction and management.
(ii) Capacity building counties on abattoir management.	(ii) Site, design, construct, equip operationalize and manage county abattoirs.
(iii) Certification of export abattoirs.	
(b) Hygiene and quality standards in meat and meat products processing	
<i>National Government</i>	<i>County Governments</i>
(i) Develop national guidelines, standards and norms in meat processing and trade.	(i) Implement national guidelines, standards and norms in meat processing.

(ii) Train meat inspectors.	(ii) Inspect and license county abattoirs.
(iii) Build capacity and offer technical assistance to county governments in meat processing.	(iii) Collect meat inspection fees.
(iv) Standardize, inspect and license export meat carriers and their mode of transport.	(iv) Lease, inspect and license county slaughter houses.
(v) Certify meat and meat products for export.	(v) Appoint county meat inspectors.
	(vi) Issue slaughter man /layers license.
	(vii) Standardize, inspect and license meat carriers and their mode of transport.

Notes

1. The two levels of Government shall consult and co-operate in the process of the transfer of resources to support the implementation of the functions.

2. In performance of their functions, the two levels of Government shall be guided by the national values and principles under Articles 10, 175, 189 and 232.

3. County governments shall, in the implementation of the functions specified in paragraphs 1 to 13 of Part 2 of the Fourth Schedule to the Constitution, ensure and co-ordinate the participation of communities and locations in governance at the local level and assist communities and locations to develop the administrative capacity for the effective exercise of the functions and powers and participation in governance at the local level.

Dated the 16th December, 2024.

Intergovernmental Relations Technical Committee.*

GAZETTE NOTICE NO. 16479

THE CONSTITUTION OF KENYA

THE INTERGOVERNMENTAL RELATIONS ACT

(Cap. 265F)

DELINEATION OF NATIONAL GOVERNMENT AND COUNTY GOVERNMENT FUNCTIONS ON ANIMAL CONTROL AND WELFARE

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has delineated the functions relating to animal control and welfare between the National Government and County Governments in the manner set out in the Schedule.

SCHEDULE

Delineation of national government and county governments functions relating to animal control and welfare

1. Animal control and welfare

<i>National Government</i>	<i>County Governments</i>
(a) Develop national standards and guidelines for animal control and welfare.	(a) Implement national standards and guidelines for county animal control and welfare.
(b) Develop national standards and guidelines for animal breeding.	(b) Implement national standards and guidelines for animal breeding.
	(c) Develop and implement county specific policies and legislations on animal control and welfare.

2. Licensing cats, dogs and other pets

<i>National Government</i>	<i>County Governments</i>
(a) Develop national guidelines for licensing of cats, dogs and other pets.	(a) License cats, dogs and other pets.
(b) Facilitate entry and exit of cats, dogs and other pets at ports of entry.	(b) Implement national guidelines for county licensing of cats, dogs and other pets

3. Accommodation, care and burial of animals

<i>National Government</i>	<i>County Governments</i>
Develop national guidelines and standards for accommodation, care and burial of animals	(a) Provide facilities for the accommodation, care and burial of animals.
	(b) Implement national guidelines and standards for accommodation, care, and burial of animals.
	(c) Establish, inspect and license county animal care facilities and veterinary clinics.
	(d) Establish and manage county animal hoarding facilities and burial grounds.
	(e) Develop and regulate animal sanctuaries.

4. Standards and regulations for humane handling and slaughter of animals

<i>National Government</i>	<i>County Governments</i>
Develop national standards and regulations for humane handling and slaughter of animals.	(a) Ensure humane handling and slaughter of animals as per standards and regulations.
	(b) Enforce national standards and regulations for humane handling and slaughter of animals.

5. Guidelines for the control of stray dog and cat populations

<i>National Government</i>	<i>County Governments</i>
Develop national guidelines for the control of stray dog and cat populations.	(a) Control of stray dog and cat population.
	(b) Implement national guidelines for the control of stray dog and cat populations.
	(c) Regulate and license live dog and cat trade in the county.
	(d) Depopulate stray dogs and cats to control transmissible diseases.

6. Guidelines for the control of stray animals in urban centers

<i>National Government</i>	<i>County Governments</i>
Develop national guidelines for the control of stray animals in urban centers	(a) Control of stray animals in urban centers.
	(b) Implement national guidelines for the control of stray animals in urban centers.

	(c) Develop and implement county specific regulations and legislations on control of stray animals in urban centers.
--	--

7. Policy and legislation on livestock keeping and grazing in cities and urban areas

<i>National Government</i>	<i>County Governments</i>
Develop national policy and legislation on livestock keeping and grazing in cities and urban areas	(a) Regulate livestock keeping and grazing in cities and urban areas.
	(b) Enforce national policy and legislation on livestock keeping and grazing in cities and urban areas.
	(c) Regulate livestock keepers in cities and urban areas.
	(d) Issue permits for movement of animals.

Notes

1. The two levels of Government shall consult and co-operate in the process of the transfer of resources to support the implementation of the functions.

2. In performance of their functions, the two levels of Government shall be guided by the national values and principles under Articles 10, 175, 189 and 232.

3. County governments shall, in the implementation of the functions specified in paragraphs 1 to 13 of Part 2 of the Fourth Schedule to the Constitution, ensure and co-ordinate the participation of communities and locations in governance at the local level and assist communities and locations to develop the administrative capacity for the effective exercise of the functions and powers and participation in governance at the local level.

DELINEATION OF NATIONAL GOVERNMENT AND COUNTY
GOVERNMENT FUNCTIONS RELATING TO COUNTY PLANNING AND
DEVELOPMENT INCLUDING LAND SURVEY AND MAPPING AND
BOUNDARIES AND FENCING

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has delineated the functions relating to county planning and development including land survey and mapping, boundaries and fencing between the national government and county governments in the manner set out in the Schedule.

SCHEDULE

Delineation of national government and county governments functions relating to county planning and development including land survey and mapping, boundaries and fencing

1. County planning and development	
(a) General principles of land planning and coordination of planning by counties	
<i>National Government</i>	<i>County Governments</i>
(i) Develop the national land use policy.	(i) Implement the national land use policy.
(ii) Develop human settlement strategies.	(ii) Implement human settlement strategies.
(iii) Prepare guidelines, manuals and standards.	(iii) Implement guidelines, manuals and standards in county physical and land use planning.
(iv) Provide guidance on proper Institutional Structures for handling Physical Planning and Urban development.	(iv) Establish appropriate institutional structures for handling physical planning and urban development.
(v) Develop strategies and promotion of eco-planning practices.	(v) Implement and promote strategies on eco-planning practices.
(vi) Conduct research on physical planning matters.	(vi) Conduct county specific Research on physical planning matters.
(b) Capacity building and technical assistance	
<i>National Government</i>	<i>County Governments</i>
(i) Build capacity and provide technical assistance to counties.	(i) Provide capacity building on physical and land use planning within their decentralized structures.
(ii) Develop and disseminate physical planning manuals and guidelines to support and standardize the practice of physical planning in counties.	(ii) Implement manuals and guidelines in the standardization of the practice of physical planning
(c) Plan Preparation	
<i>National Government</i>	<i>County Governments</i>
(i) Develop and approve the National Physical and land use Development plan.	(i) Implement the national physical and land use development plan.
(ii) Provide a framework for preparation of inter-county Physical plan.	(ii) Provide overall land use development framework for the county.

(iii) Prepare physical plan for reserved public land held by national government in collaboration with county governments.	(iii) Interpret and align national and regional policies and strategies to provide a basis for balanced urban and rural development.
(iv) Prepare frameworks for Public and Private investment projects of national importance.	(iv) Prepare inter-county physical and land use development plans as per established framework.
(v) Prepare physical development plans for special projects in conjunction with county governments, including: Special Economic Zones, Resort Cities, Techno cities and Industrial parks.	(v) Approve physical and land use development plans for projects of national importance.
(vi) Prepare thematic plans to facilitate acquisition of land for national projects including transport corridors.	(vi) Approve thematic plans to facilitate acquisition of land for national projects including transport corridors.
(d) Development Control	
<i>National Government</i>	<i>County Governments</i>
Develop standards and guidelines for development control.	Implement the standards and guidelines on development control to regulate the orderly planning and growth of urban and rural areas.
(e) Land Administration	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate land administration and management policies and legislations.	(i) Implement land policies and formulate county specific policies on land administration in line with the national government policy.
(ii) Administer and manage land in collaboration with the county governments and other agencies.	(ii) Approval of land development proposals including extension and renewal of leases.
(iii) Collect land rents, stamp duty, fees and charges.	(iii) Enforce compliance with special conditions on land leases.
(iv) Documentation and registration of extension and renewal of leases.	(iv) Collect land rates, rents and stand premium for county government land.
(v) Prepare land leases on behalf of national and county governments.	
(vi) Provide technical advice on land matters to the county governments and other government agencies.	
(vii) Co-ordinate the implementation of land administration and management of related policies.	
(f) Land Registration	
<i>National Government</i>	<i>County Governments</i>
(i) Register all documents for all land transactions,	Approve development proposals, including sub-divisions,

	under the various land Registration Statutes including Transfers, Charges and Mortgages, Probate.	amalgamations, change of use, partition, extension and renewal of leases and issue compliance certificates.
(ii)	Register documents including Deed polls, Floor plans, Deeds of rectification, Powers of Attorney, Agreements, Indemnities.	
(iii)	Prepare and process various registrable documents, issue Title Deeds and Certificates of Title for all categories of land registered under the various land registration statutes.	
(iv)	Issue searches.	
(v)	Issue relevant consents.	
(vi)	Prepare provisional and replacement titles as by Law provided.	
(vii)	Prepare and issue certificates of Incorporation.	
(viii)	Maintain manual and electronic records and allowing access on request.	
(ix)	Maintain manual and electronic records and allowing access on request.	
(x)	Assess and stamp Instruments with the requisite Stamp Duty.	
(xi)	Inspect and control Duty Franking Machines.	
(xii)	Hear and determine land boundary and other land disputes in collaboration with counties where applicable.	
(xiii)	Consider and determine removal of cautions, restrictions and other encumbrances.	
(xiv)	Offer both technical and legal advice to the Attorney-General, Office of the Director of Public Prosecutions, Ethics and Anti-Corruption Commission and other commissions whenever sought.	
(xv)	Register sectional properties.	
(g)	Valuation	
<i>National Government</i>		<i>County Governments</i>
(i)	Assess and collect stamp duty and other valuation fees.	(i) Collect annual property rates and CILOR.
(ii)	Undertake valuation for rental.	(ii) Undertake valuation for rating.
(iii)	Assess land value upon subdivision, change of user and lease extension.	(iii) Undertake valuation for county government assets.
(iv)	Undertake purchase/sale/book purchase or insurance for national government.	(iv) Identify the land to be valued for compulsory acquisition.
(v)	valuation for leasing-by the national Government.	(v) Undertake valuation for county government leasing.
(vi)	Maintain the valuers registration board.	
(vii)	Maintain the estates registration board.	
(viii)	Undertake valuation for probate purposes.	
(ix)	Undertake valuation for compulsory land acquisition.	
(x)	Undertake valuation of Government assets.	
(xi)	Build capacity county Governments.	
(h) Land Adjudication		
<i>National Government</i>		<i>County Governments</i>
(i)	Provide technical advice to the county governments on land adjudication.	(i) Identify and recommend land for adjudication.
(ii)	Policy, legal framework and enforcement of regulation and standards for land adjudication.	(ii) Sensitize communities for land adjudication.
(iii)	Provide Oversight role on land adjudication.	(iii) Prepare the county status report on land adjudication.
(iv)	Prepare national programme for land adjudication.	(iv) Collect revenue.
(v)	Gazette Land Adjudication areas and officers.	
(vi)	Revenue collection.	
(vii)	Recruit, develop and deploy staff.	
(viii)	Recruit, develop and deploy staff.	
(ix)	Clear and issue authority to declare adjudication sections.	
(x)	Issue Certificates of Finality of adjudication sections.	
(xi)	Register adjudication sections for titling.	
(xii)	Maintain national land adjudication information.	
(xiii)	Acquire maps, satellite imageries and adjudication records.	
(xiv)	Custody of final adjudication register.	

(xv) Prepare the national status report on land adjudication.	
(xvi) Monitor and evaluate land adjudication.	
(xvii) Implement land adjudication programmes.	
(i) Settlement of the landless	
<i>National Government</i>	<i>County Governments</i>
(i) Acquire land for settlement schemes.	(i) Sensitize communities for settlement programme.
(ii) Approve beneficiaries, issuance of letters of offer and documentation of settlers.	(ii) Settle the landless in the county.
(iii) Register settlement schemes for issuance of title-deeds.	(iii) Plan and approve settlement schemes in the counties in liaison with the national government.
(iv) Manage data on land settlement.	(iv) Manage data on land settlement within the county.
(v) Plan settlement schemes.	
(vi) Survey and demarcate settlement land.	
(vii) Identify and place beneficiaries.	
(viii) Implement settlement programmes.	
2. Statistics	
<i>National Government</i>	<i>County Governments</i>
(a) Develop norms and standards for production and dissemination of statistical information.	(a) Implement the set norms and standards on statistics.
(b) Maintain custody of the official national statistics.	(b) Maintain custody of official statistics in the county.
(c) Plan and coordinate national statistics.	(c) Maintain a comprehensive and reliable county socio-economic database.
(d) Collect, compile, analyze, abstract and disseminate statistical information.	(d) Quality assurance of statistical information.
(e) Conduct the population and housing census.	(e) Collect, compile, analyze, abstract and disseminate statistical information.
(f) Maintain a comprehensive national socio-economic database.	(f) Participate in the population and housing census in consultation with national government.
(g) Build the capacity of counties in statistics	(g) Publish and disseminate statistical information for public use.
(h) Quality assurance of statistical information.	(h) Coordinate, monitor and supervise county statistical system.
(i) Coordinate, monitor and supervise the statistical system.	
3. Land survey and mapping	

(a) Implement survey policies and legislations	
<i>National Government</i>	<i>County Governments</i>
(i) Develop survey policy and legislations.	(i) Implement policies and guidelines on survey and mapping activities at the county as per the national policies and legislation.
(ii) Regulate survey activities and related professionals.	(ii) Develop county specific policies and legislations in line with the national policies and legislations.
(iii) Co-ordinate and oversee statutory bodies established to regulate surveyors.	
(b) Provision of survey controls	
<i>National Government</i>	<i>County Governments</i>
(i) Define, establish and maintain the Kenya Geodetic Reference Frame (KENREF) in line with the International Terrestrial Reference Frame' (ITRF), and as part of the African Geodetic Reference Frame (AFREF).	(i) Establish a 3 rd to 4 th order geodetic controls.
(ii) Establish a National Geodetic Control Network from 1st to 2 nd order.	(ii) Provide lower order vertical controls.
(iii) Establish modern state of the art national positioning system.	(iii) Utilize the modern state of the art National Positioning System.
(iv) Establish Very Long Baseline Interferometry (VLBI).	
(v) Undertake astronomical observations for positioning purposes.	
(vi) Define, establish and maintain the National Vertical Datum.	
(vii) Undertake gravity and magnetic measurements.	
(viii) Establish a national geoidal model.	
(ix) Carry out crustal deformation monitoring.	
(x) Photo control for use in preparation of base maps.	
(xi) Provide fundamental vertical controls.	
(c) Calibration of survey equipment	
<i>National Government</i>	<i>County Governments</i>
(i) Develop calibration standards for survey equipment.	Ensure survey equipment procured by the county are calibrated.
(ii) Regulate and approve calibration centres.	
(iii) Establish national calibration centres.	

(d) Hydrographic surveys	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate hydrographic survey policies and Regulations.	(i) Collect hydrographic data on internal waters within the county.
(ii) Develop and maintain national hydrographic survey standards.	(ii) Submit hydrographic data to the Director of surveys.
(iii) Prepare hydrographic survey manuals.	(iii) Disseminate hydrographic data to the public.
(iv) Carry out hydrographic surveys.	(iv) Cost hydrographic mapping projects at the county level.
(v) Checking and authentication of hydrographic surveys.	(v) Produce inundation maps for flood monitoring and decision-making.
(vi) Manage all hydrographic survey data.	(vi) Survey of water bodies for recreational purposes and monitoring of siltation levels.
(vii) Process, analyze and disseminate hydrographic data.	(vii) Capacity building on hydrography.
(viii) Prepare and maintain bathymetric charts.	(viii) Implement guidelines, standards and policies on hydrography.
(ix) Disseminate hydrographic data.	(ix) Sensitize the public on maritime safety within the county.
(x) Delineate and delimitate Kenya's maritime boundaries and zones.	(x) Manage riparian reserves (rivers, lakes) in line with National Government policy.
(xi) Co-ordinate national and international hydrographic survey activities.	
(xii) Calibrate, certify and maintain hydrographic surveys equipment.	
(xiii) Advise the county government on Hydrographic surveys.	
(xiv) Provide secretariat to the National Hydrographic and Oceanographic Committee.	
(xv) Carry out marine crustal deformation monitoring survey.	
(xvi) Implement United Nations Law of the Sea and other related international maritime laws.	
(xvii) Measure Ocean dynamics including Tidal data, currents; pressure and salinity.	
(xviii) Establish and maintain tidal gauges.	

(xix) Harmonize the hydrographic datum with the national geodetic datum.	
(xx) Estimate and cost of hydrographic mapping projects.	
(xxi) Shoreline surveys for oceans and lakes.	
(e) Photogrammetry	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate photogrammetry policies and Regulations.	(i) Implement photogrammetry policies, standards and Regulations at county level.
(ii) Develop and maintain national photogrammetry standards.	(ii) Carry out photogrammetric activities at county level.
(iii) Prepare photogrammetric manuals.	(iii) Submit photogrammetric activities datasets to the national database for authentic and archival.
(iv) Carry out national photogrammetric works.	(iv) Disseminate photogrammetric data sets at county level.
(v) Check and authenticate photogrammetric works.	(v) Implement imagery specifications for county photogrammetric works.
(vi) Prepare and maintain of photogrammetric datasets.	(vi) Carry out aerial triangulation and adjustment.
(vii) Process, analyze and disseminate photogrammetric datasets.	(vii) Budget and cost of county photogrammetric projects.
(viii) Research, acquire, calibrate, maintain and upgrade photogrammetric instruments.	
(ix) Research, develop, maintain and revise photogrammetric. Production standards in line with national and international photogrammetric standards.	
(x) Develop, maintain and enforce imagery specifications.	
(xi) Carry out flight planning, aerial photography and satellite imagery acquisition for international boundary corridors.	
(xii) Prepare and determine photo control within international boundary corridors.	
(xiii) Carry out flight planning aerial photography and satellite imagery acquisition for national photogrammetric works.	

(xiv)	Carry out aerial triangulation and adjustment.		(ix)	Produce and update utility infrastructure maps for purposes of installation of sewers, powerlines, waterpipes etc.	
(xv)	Photogrammetric data coding and classification.		(x)	Contribute to the production of the Global and other international maps.	
(xvi)	Budget and cost photogrammetric projects.		(xi)	Oversee research on new and emerging technologies.	
(xvii)	Monitor and evaluate the photogrammetric activities at national level.		(xii)	Produce and update International and National series of navigation charts.	
(xviii)	Certify Photogrammetric equipment's at national level.		(xiii)	Contribute to the Regional Marine Spatial Data Infrastructure.	
(xix)	Control dissemination of photogrammetric data sets at national level.		(xiv)	Collaborate and co-ordinate activities of the International Cartographic Organization.	
(xx)	Certify Photogrammetric equipment at national level.		(xv)	Harmonize the National Gazetteer on Geographic Names with the internal Gazetteers.	
(f) Cartography			(xvi)	Scheme both International and National Series of charts- Determination of scales.	
<i>National Government</i>		<i>County Governments</i>	(xvii)	Map and maintain Kenya's Maritime boundaries and Zones including Territorial Waters, Exclusive Economic Zone and Extended Continental Shelf.	
(i)	Formulate and review of cartographic policies and Regulations.	(i)	Design, production and updating of inundation maps for flood monitoring and decision-making.	(xviii)	Develop and implement the World Postal codes to speed the sorting and process in of mail by assigning unique numeric or alphanumeric codes to each geographic locality.
(ii)	Develop and maintain national cartographic standards.	(ii)	Implement County Postal codes.	(xix)	Disseminate Maritime safety information to Mariners in form of up-to-date Navigational Charts.
(iii)	Prepare cartographic manuals.	(iii)	Produce and update utility infrastructure maps for purposes of installation of sewers, powerlines and waterpipes.	(xx)	Collaborate with other international Charting Organizations.
(iv)	Process, analyze and disseminate cartographic data.	(iv)	Collect primary and secondary data to prepare topographical base maps.	(xxi)	Produce the National Atlas.
(v)	Prepare county boundary maps.	(v)	Draw Survey plans and cadastral maps.	(xxii)	Design, produce and update National Topographic, Thematic and Special Maps.
(vi)	Produce, chart and update National Maritime boundary maps and aeronautical charts for safe navigation.	(vi)	Sale of maps to members of the public.		
(vii)	Participate in international research projects.	(vii)	Sensitize the public on matters relating to boundary maps and cadastral plans.		
(viii)	Collect, record, analyze, summarize and map statistical information on disaster preparedness and disseminate occurrences, impacts and losses, on a regular basis.	(viii)	Co-ordinate cartographic activities in the county.		

(xxiii)	Compile, Publish, Co-ordinate and Implement the National Gazetteer on Geographical Names.	
(xxiv)	Co-ordinate, Verify and Standardize data produced by both the public and private organizations for onward transmission to the Kenya National Spatial Data Infrastructure. (KNSDI).	
(xxv)	Design, approve and cost for implementation of national Cartographic projects.	
(g) Photolithography		
<i>National Government</i>		<i>County Governments</i>
(i)	Formulate and review of map reproduction policies, legislations, standards and manuals.	(i) Implement map reproduction policies, manuals and standards.
(ii)	Reproduce national and global maps.	(ii) Reproduce county maps.
(h) Geospatial data management		
<i>National Government</i>		<i>County Governments</i>
(i)	Collect, coordinate and harmonize all data captured in the county spatial data infrastructure for sharing with the Kenya National Spatial Data Infrastructure (KNSDI).	(i) Develop geospatial processing systems, spatial information policies, GIS, software, standards, procedures and user needs.
(ii)	Advise the county authorities on the usage of geospatial data for regional development and planning.	(ii) Design and maintain standards for spatial data capture processing and analysis in conformity to ISO standards.
(iii)	Provide geospatial data to public and professional users.	(iii) Integrate, verify and approve spatial data from other providers both at the national and international level to avoid data conflicts resulting from wrong data interpretation.
(iv)	Liaise with the national government for upcoming modern technologies with respect to geospatial data management.	(iv) Advise the service providers on spatial data capture, availability and access.
(v)	Create, Process, catalogue and up-date of geospatial data records; overseeing research of new and emerging technologies and equipment.	(v) Provide data access controlling usage of all spatial data to international and national use.
(vi)	Set out spatial data systems and LSDI. (Local spatial data Infrastructure).	(vi) Assess, convert, analyze and model geospatial data.
(vii)	Digitize, Index and preserve geospatial data.	(vii) Create geospatial database and metadata, maintaining, updating and publishing of metadata.

(viii)	Cataloguing, querying, developing metadata, and preserving all geospatial records for public consumption.	(viii) Develop, maintain and control National Spatial Data Infrastructure (NSDI).
(ix)	Create and up-date geospatial files, cards and registers.	(ix) Design clearing house and internet mapping, and manage geospatial information access. Secure, share, estimate, cost and provide geospatial information.
(x)	Index and maintain backup records and submit to the national Government for inclusion in the KNSDI.	(x) Collect, maintain, harmonize, achieve and control access of all georeferenced geospatial data gathered nationally and locally with respect to infrastructure cadastre, Topography and topology, Hydrography, Oceanography and celestial.
(xi)	Carry out geospatial data conversion, checking and archiving of geospatial data from producers.	(xi) Research and initiate new geospatial data management techniques and publishing metadata.
(xii)	Record, convert, analyze and model geospatial data.	(xii) Supervise, create and up-date geospatial files, cards and registers.
(xiii)	Service and maintain geospatial records equipment.	(xiii) Maintain and update clearing house and backup records.
(xiv)	Supervise the processing, preservation, maintenance, cataloguing, storage, archiving and retrieval of geospatial records.	(xiv) Supervise transformations, analysis and modeling of geospatial data and advising on the same for better interpretation of spatial data.
(xv)	Ensure preservation of geospatial records from public and private producers.	(xv) Oversee servicing, maintain and up-grade geospatial data equipment (Computers, software and servers) for quality central of data.
		(xvi) Validate creation and up-date of spatial data files, cards and registers, cataloguing.
		(xvii) Maintain and up-date of clearing house and backup records.
		(xviii) Ensure safe and secure data storage, archiving and retrieval of geospatial data to avoid corruption.
		(xix) Estimate and cost spatial data projects.
		(xx) Advise the national and County physical planners and stake holders on data usage and availability.
		(xxi) Receive, register, capture, process, and index Cadastral and utilities geospatial data from public and private producers.

	(xxii) Maintain national survey data backup.
(i) Spatial data infrastructure	
<i>National Government</i>	<i>County Governments</i>
(i) Establish the Kenya National Spatial Data Infrastructure (KNSDI).	(i) Establish county Spatial Data Infrastructure (SDI) based on guidelines from national government.
(ii) Develop legislation, policy and guidelines on KNSDI.	(ii) Connect Network in county and Sub-county Offices.
(iii) Develop the National Spatial Database Systems.	(iii) Collect and upload data to KNSDI.
(iv) Co-ordinate KNSDI activities.	(iv) Establish county SDI Centres.
(v) Establish KNSDI Centre.	(v) Collect, process, maintain and disseminate spatial data to KNSDI centre.
(vi) Develop Standards.	
(vii) Develop and maintain clearing House.	
(viii) Develop Metadata Standards.	
(j) Regulating survey and mapping practice	
<i>National Government</i>	<i>County Governments</i>
Regulate survey and mapping professionals to ensure quality control (Land surveying and mapping)	Ensure compliance with the regulation.
4. Boundaries and fencing	
(a) Property boundaries	
<i>National Government</i>	<i>County Governments</i>
Survey, inspect and maintain inter-county and international boundaries.	(i) Identify, survey, determine, inspect and maintain property boundaries within a county.
	(ii) Submit status reports on the county boundaries to the national government.
	(iii) Enforce fencing of properties.
(b) Provide and maintain up-to-date cadastre	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate and maintain cadastre policies, legislations, standards and manuals.	(i) Implement survey policies, manuals and standards.
(ii) Undertake cadastral surveys on national government land.	(ii) Verify and approve all cadastral surveys within the county
(iii) Establish cadastral information system.	(iii) Provide access on to georeferenced survey and mapping data to private and public institutions such as financial institution, educational institutions, directorate of public works.
(iv) Register and verify surveys.	(iv) Resolve property boundary disputes.

(v) Process, analyze and disseminate geospatial data.	(v) Revenue collection.
(vi) Verify and maintain property registration maps.	(vi) Prepare survey plans and documents.
(vii) Custody of all property registration maps.	
(viii) Resolve property boundary disputes.	
(c) International boundary surveys	
<i>National Government</i>	<i>County Governments</i>
Survey, inspect and maintain international boundaries in collaboration with counties	County governments bordering neighboring countries to collaborate with the national government in undertaking survey, inspection and maintenance of international boundaries.
5. Housing	
(a) Housing policy	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate and promote the national housing policy.	(i) Implement the national housing policy.
(ii) Monitor and audit the implementation of the national housing policy.	(ii) Conduct county specific housing surveys.
(iii) Undertake periodic review and evaluation of national housing policy.	(iii) Institute mechanisms for availing land for housing development including land banking.
(iv) Develop a framework to support county governments in the implementation of the national housing policy.	(iv) Plan and develop housing infrastructure.
(v) Formulate housing standards.	
(b) Management and maintenance of housing	
<i>National Government</i>	<i>County Governments</i>
(i) Develop, manage and maintain national government houses.	(i) Develop, manage and maintain county government houses.
(ii) Manage rental income for national government houses.	(ii) Manage rental income for county government houses.
(iii) Register national government houses.	(iii) Register county government houses.
(iv) Management of national public officers housing scheme for national government.	(iv) Management of county public officers housing scheme for county governments.
(v) Maintain an inventory of national government owned and leased properties.	(v) Maintain an inventory of county government owned and leased properties.
(vi) Public office accommodation and lease administration for national government.	(vi) Public office accommodation and lease administration for county governments.

(c) Slum upgrading and prevention	
<i>National Government</i>	<i>County Governments</i>
(i) Co-ordinate the formulation, implementation, review and monitoring of policies, legislation, standards and manuals on national slum up-grading and prevention.	(i) Implement policies, legislation, standards and manuals on national slum up-grading and prevention.
(ii) Build capacity and offer technical assistance to county governments and stakeholders in slum upgrading and prevention initiatives.	(ii) Develop county specific slum upgrading and prevention policy.
(iii) Upgrading slums situated on national government land.	(iii) Upgrading slums situated on county government land.
(d) Urban development and human settlement	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate and review the national urban policy.	(i) Implement the national urban policy.
(ii) Develop national legislation for urban areas and cities.	(ii) Develop legislation for urban areas and cities.
(iii) Develop Regulations on:	(iii) Ensure quality control and standardization of urban planning and programmes implementation.
(A) the criteria for and the classification, governance and management of urban areas and cities (urban planning, research, development and management);	(iv) Implement best practices in urban development.
(B) participation of residents in the governance of urban areas and cities;	(v) Implement Regulations on:
(C) principles of governance and management of urban areas and cities; and	(A) criteria for classification, governance and management of urban areas and cities;
(D) standards and guidelines for planning, development control, and urban management standards of urban areas and cities.	(B) participation of residents in the governance of urban areas and cities;
(iv) Disseminate national urban policy surveys and findings.	(C) principles of governance and management of urban areas and cities; and
(v) Monitor the implementation of the national urban development policy.	(D) standards and guidelines for planning, development control, and urban management standards of urban areas and cities.
(vi) Develop national policy and strategy on human settlement.	(vi) Facilitate coordination framework meetings to strategize the urban development agenda.

(vii) Build capacity and offer technical assistance to county governments.	(vii) Monitor and audit urban development agenda to guide benchmarking urban development best practices.
	(viii) Disseminate national urban policy surveys and findings.
	(ix) Facilitate collection of urban data.
	(x) Implement the national policies in line with international instruments.
	(xi) Implement the national policy and strategy on human settlement.
(e) Urban infrastructure and services	
<i>National Government</i>	<i>County Governments</i>
Formulate and review strategies for Urban infrastructure and services.	(i) Implement strategies for urban infrastructure and services.
	(ii) Undertake urban infrastructure and services.
(f) Environmental protection and conservation	
<i>National Government</i>	<i>County Governments</i>
(k) Implement the national policy on environmental protection and conservation.	(e) Develop national policy on environmental protection and conservation.
(l) Monitor and audit environmental protection and conservation programmes.	(f) Monitor the implementation of the national urban development policy.
(g) Urban disaster management	
<i>National Government</i>	<i>County Governments</i>
Formulate the disaster management policy.	Implement the disaster management policy.
(h) Metropolitan development	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate the metropolitan development policy, legislation, strategies, guidelines and standards.	(i) Implement the metropolitan development policy, legislation, strategies, guidelines and standards.
(ii) Develop criteria for identification of metropolitan areas in collaboration with county governments.	(ii) Delineate metropolitan boundaries.
(iii) Facilitate the establishment of metropolitan regions in the country.	(iii) Implement the criteria for establishment of metropolitan areas.
	(iv) Create metropolitan regions.
(i) Metropolitan governance and management	
<i>National Government</i>	<i>County Governments</i>
(i) Formulate the policy on metropolitan governance and management.	
(ii) Develop a framework for establishing metropolitan authorities.	Establish metropolitan governance structures.

(j) Metropolitan physical and land use (spatial) planning	
<i>National Government</i>	<i>County Governments</i>
(a) Prepare metropolitan physical and land use planning framework.	(a) Prepare and approve the metropolitan physical and land use plan.
(b) Coordinate metropolitan physical and land use planning	(b) Implement metro-wide infrastructure projects and programs aligned to county government functions.
(c) Implement metro-wide infrastructure projects and programs aligned to national government functions.	(c) Prepare, approve and enforce action area plans in conformity with metro-wide physical and land use plans.

Notes:

1. The two levels of Government shall consult and co-operate in the process of the transfer of resources to support the implementation of the functions.

2. In performance of their functions, the two levels of Government shall be guided by the national values and principles under Articles 10, 175, 189 and 232.

3. County governments shall, in the implementation of the functions specified in paragraphs 1 to 13 of Part 2 of the Fourth Schedule to the Constitution, ensure and co-ordinate the participation of communities and locations in governance at the local level and assist communities and locations to develop the administrative capacity for the effective exercise of the functions and powers and participation in governance at the local level.

Dated the 16th December, 2024.

KITHINJI KIRAGU,
Chairperson,
Intergovernmental Relations Technical Committee.

GAZETTE NOTICE No. 16482

THE CONSTITUTION OF KENYA
THE INTERGOVERNMENTAL RELATIONS ACT
(Cap. 265F)

DELINEATION OF NATIONAL GOVERNMENT AND COUNTY
GOVERNMENT FUNCTIONS ON CULTURAL ACTIVITIES, PUBLIC
ENTERTAINMENT AND PUBLIC AMENITIES

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has delineated the functions relating to cultural activities, public entertainment and public amenities between the National Government and County Governments in the manner set out in the Schedule.

SCHEDULE

Functions of the national government and county governments relating to cultural activities, public entertainment and public amenities

1. Betting, casinos and other forms of gambling	
<i>National Government</i>	<i>County Governments</i>
(a) Develop national policies, legislation, norms and standards for betting, casinos and other forms of gambling	(a) Implement national policy, legislation, standards and norms on betting, casinos and other forms of gambling
(b) Develop national regulations for the racing and gaming industry	(b) Undertake periodic monitoring and evaluation of betting lotteries and gaming
(c) Facilitate capacity building and provide technical assistance to county governments	(c) Develop and implement County specific legislation on betting and other forms of gambling

(d) License national betting, casinos and other forms of gambling	(d) License betting casinos and other forms of gambling within a county
(e) Conduct vetting, security checks and due diligence	(e) Issue single business permits for national betting, casinos and other forms of gambling
(f) License prize competitions that cut across Counties (on promotion of products and services)	(f) Enforce policies, legislation, standards and norms on Betting, casinos and other forms of gambling
(g) License national Lotteries	(g) License prize competitions for promotions within the County
(h) License On-the course totalisators	(h) License and supervise lotteries within the County)
(i) License Off-the course totalisators	(i) License and issue pool table permits within the County
(j) License bookmakers	(j) Handle complaints on Betting, casinos and other forms of gambling at the county level
(k) Handle complaints and arbitration on betting, casinos and other forms of gambling at the national level	

2. Racing

<i>National Government</i>	<i>County Governments</i>
	(a) Develop, implement and enforce county specific policies and legislation
	(b) Develop and implement county specific norms and standards
	(c) Regulate racing within the county
	(d) Monitor and evaluate racing activities in the county
	(e) License and inspect county racing activities
	(f) Develop framework to govern inter-county racing competitions
	(g) License racing competitions that cut across counties
	(h) Handle racing complaints
	(i) Provide capacity building to the industry

3. Liquor licensing

<i>National Government</i>	<i>County Governments</i>
	(a) License and control of sale production, distribution promotion, consumption and use of alcoholic drinks
	(b) License business premises where alcoholic drinks are sold

	(c) License the manufacturing and production of alcoholic drinks
	(d) Regulate outdoor advertising of alcoholic drinks
	(e) Establish and maintain rehabilitation centres for persons recovering from addiction to alcoholic drinks
	(f) Sensitization and capacity building of citizenry on the consequences of excessive consumption of alcoholic drinks
	(g) Adopt and implement measures to eliminate illicit trade in alcohol including smuggling and counterfeiting
	(h) Protect the health of persons under the age of eighteen years by preventing their access to alcoholic drinks
4. Cinemas	
<i>National Government</i>	<i>County Governments</i>
	(a) Develop and implement county specific policies, regulations, norms and standards
	(b) Regulate cinema content in the county
	(c) Regulate cinemas in the county
	(d) Develop and implement County legislation on cinemas
	(e) Promote, license and regulate film shooting locations in the County
	(f) Establish, develop, regulate and manage cinema facilities in the County
	(g) Provide capacity building to county cinema regulators
	(h) Regulate cinematography and cinema production at the county level
	(i) Promote production and consumption of local content
	(j) License cinemas and premises for cinemas
	(k) Conduct vetting, security checks and due diligence on cinemas
5. Video shows and hiring	
<i>National Government</i>	<i>County Governments</i>
	(a) Develop and implement county specific policies, legislation, norms and standards

	(b) License and regulate video shows and hiring of premises
	(c) Provide capacity building to regulators
	(d) Monitor and evaluate video shows and hiring premises
	(e) Enforce compliance of the policies and regulations developed at the county level
6. Libraries	
<i>National Government</i>	<i>County Governments</i>
(a) Develop policy, legislation and set norms and standards for the library function.	(a) Implementation of the library policy, legislation, standards and norms.
(b) Capacity building and technical assistance to the county governments.	(b) Identification of needs for training and development for capacity building.
(c) Acquire, preserve and maintain a collection of Library resources including books published within and outside Kenya and such other materials and sources of knowledge necessary for a comprehensive national bibliography.	(c) Equip, develop, manage and maintain the libraries as well as provide information service responsive to the needs of the communities.
(d) Carry out and promote research in the development of libraries and related services.	(d) Establish a center for books, to promote a culture of reading, writing, and publishing in local languages, information and advice, advocacy, book development and easy access to books for all through collection, development and distribution of information materials.
(e) Promote reading for knowledge, information and enjoyment through the stimulation of public interest in books and participation in campaigns for the eradication of illiteracy.	(e) Provide the communities with a variety of information materials, programs and services through stocking approved learning resources for formal and informal education.
(f) Administering standard numbers for books, serials, music.	(f) Establish a local collection section in each library holding the respective community's resources, history people, customs and traditions to promote the culture of indigenous knowledge and languages.
(g) Publish the Kenya National Bibliography and the Kenya Periodicals Directory.	(g) Carry out sensitization in counties to promote learning.
(h) Establish the national webcat to publish catalogues for all libraries.	(h) Provide a conducive learning environment, stimulate and promote public interest in reading books and multimedia for information, knowledge and enjoyment.

(i) Provide library reference and referral services.	(i) Promote ICT in accessing and disseminating information.
	(j) Provide lending, inter-library loans, outreach, specialized and homebound services.
	(k) Provide advisory and a county library reference and referral services.
	(l) Liaise with national government, other counties and relevant institutions to enhance information sharing.
7. Museums	
<i>National Government</i>	<i>County Governments</i>
(a) Develop the national policies and legislation, norms and standards on museums	(a) Establish, construct and maintain museums.
(b) Provide capacity building and technical assistance to the county governments on heritage and museum function.	(b) Implement national government museum policies, legislation, norms and standards
(c) Identify and document National Heritage Sites and Monuments	(c) Develop county specific legislation and regulations, in accordance with the national policy and laws on museums.
(d) Identify World Heritage Sites and its collections.	(d) Identify training and development needs for capacity building for heritage and museums management.
(e) Establish a national repository and maintain a national reference collection of things or articles on scientific, cultural, natural, technological and human interest.	(e) Identify acquire and collect materials and objects of historical, cultural and natural importance relevant to the respective county Governments
(f) Protect and conserve National Heritage Sites and Monuments and World Heritage Sites including collections therein.	(f) Protect and conserve materials and objects of historical, cultural and natural importance relevant to the respective County; and
(g) Promote knowledge on matters scientific, cultural, natural, technological and human interest.	(g) protect and conserve non-object aspects such as customs, history, expressions, practices, narratives, indigenous knowledge and skills.
(h) Research on matters of scientific, cultural, natural, technological and human interest.	(h) Protect, conserve and document of the historical, cultural and natural sites within the county.
(i) Ratify and co-ordinate the implementation of international conventions on heritage.	(i) Promote heritage awareness and implement related educational programs within the county.
(j) Regulate and license exploration and excavation of antiquities including their exports.	(j) Research, develop and exhibit materials and objects of historical, cultural and natural importance relevant to the county.
(k) Designate and maintain national ancient and historical monuments	

	(k) Implement international conventions on heritage and museums, in consultation with the national Government.
	(l) Collect entrance fees in all Museums
8. Cultural activities and facilities	
<i>National Government</i>	<i>County Governments</i>
(a) Develop and review policies, legislation, standards, guidelines and manuals on all forms of cultural activities, expressions and facilities.	(a) Domesticate the national policy.
(b) Promote all forms of cultural activities at national and international level.	(b) Develop county specific policies in line with the national policy.
(c) Maintain a repository on cultural activities and facilities.	(c) Implement all forms of cultural expressions and activities.
(d) Periodic reporting on international obligations.	(d) Establish, manage and maintain cultural facilities.
(e)	(e) Coordinate the participation of communities in cultural activities.
(f)	(f) Preserve and protect cultural activities and facilities within a county.
(g)	(g) Identification, acquisition, collection and preservation of materials and objects of cultural importance.
(h)	(h) Register and license private cultural facilities.
	(i) Implementation of international obligations on cultural activities and facilities.
9. County parks, beaches and recreation facilities	
<i>National Government</i>	<i>County Governments</i>
	(a) Develop policies and legislation on utilization of county parks, beaches and recreation facilities.
	(b) Establish and maintain recreation grounds and facilities parks, squares and open spaces within the county.
	(c) Establish and maintain boats and boating establishments.
	(d) Establish and maintain recreation grounds.
	(e) Licence and Control boating establishments.

Notes:

1. The two levels of Government shall consult and co-operate in the process of the transfer of resources to support the implementation of the functions.

2. In performance of their functions, the two levels of Government shall be guided by the national values and principles under Articles 10, 175, 189 and 232.

3. County Governments shall, in the implementation of functions specified in paragraphs 1 to 13 of Part B of the Fourth Schedule to the Constitution, ensure and co-ordinate the participation of communities and locations in governance at the local level and assist communities and locations to develop the administrative capacity for effective participation in governance at the local level.

Dated the 16th December, 2024.

KITHINJI KIRAGU,
Chairperson,
Intergovernmental Relations Technical Committee.

GAZETTE NOTICE NO. 16483

THE CONSTITUTION OF KENYA
THE INTERGOVERNMENTAL RELATIONS ACT
(Cap. 265F)

DELINEATION OF NATIONAL GOVERNMENT AND COUNTY
GOVERNMENT FUNCTIONS ON PRE-PRIMARY EDUCATION, VILLAGE
POLYTECHNICS, HOMECRAFT CENTERS AND CHILDCARE FACILITIES

IT IS notified for the general information of the public that the Intergovernmental Relations Technical Committee has delineated the functions relating to pre-primary education, village polytechnics, homecraft centers and childcare facilities between the national government and county governments in the manner set out in the Schedule.

SCHEDULE

Functions of the national government and county governments relating to pre-primary education, village polytechnics, homecraft centers and childcare facilities

1. Pre-primary education	
(a) Education Policy Formulation	
<i>County Governments</i>	<i>National Government</i>
(i) Formulate county specific policies.	Formulate and review national policies on pre-primary education.
(ii) Implement policies and legislation on pre-primary education.	
(b) Management	
<i>County Governments</i>	<i>National Government</i>
(i) Manage and administer pre-primary education.	(i) Develop guidelines on constitution of boards of management for pre-primary schools.
(ii) Constitute the boards of management.	(ii) Develop policy guidelines on data collection, maintenance and protection.
(iii) Manage, administer and supervise county pre-primary education staff in accordance with the county public service boards guidelines.	(iii) Integrate pre-primary education data into the national education database.

(iv) Collaborate with the board of management in the management of pre-primary schools.	
(v) Collect, maintain and protect data.	
(c) Pre-primary curriculum	
<i>County Governments</i>	<i>National Government</i>
(i) Implement pre-primary education curriculum.	(i) Develop and review pre-primary curriculum.
(ii) Develop mechanisms to ensure all children attend and transit from pre-primary education.	(ii) Build capacity and provide technical assistance to county governments on the implementation of the Curriculum.
